Our leaders say it's an honor to fight  
Shoot, every random person is sight  
The killing helps our nation thrive  
Keeps them on top, capitalistic minds, they lie!  
Join the army sign up and serve  
Do the bastards dirty work  
Join the army, join the few  
Join the killers for the Red White and Blue  
Bombing countries is the reason they lie  
Liberation is not, I see greed in your eyes  
I don't agree with your tyranny  
I won't support your fucking shit, I won't!  
Join the army sign up and serve  
Do the bastards dirty work  
Join the army, join the few  
Join the killers for the Red White and Blue  
Society and the media fucking upset me  
It makes me fucking sick  
Down with your capitalism  
And your so-called terrorism, they lie!  
Join the army sign up and serve  
Do the bastards dirty work  
Join the army, join the few  
Join the killers for the Red White and Blue
