I got a bright sun lightin my way
Well i've a woman and she makes my day
Theres a time when you open up a page of your life
and your smilin
Those lines that cross your face,
they tell me a story,tell me you got the time...
I'll tell yer...I'd a killer it was under my skin
It disappeared so that i'd begin
Searchin my soul,diggin up the earth
that had fallen through my fingers.
those lines right across your face,
they're tellin me a story.have you got the time,... have
you got the time?

Come follow me...
When your heads so heavy with the weight of the day...
Come follow me...
I can steal you while i'm on my way
Come follow me...
It's a new day...yes it is..
Don't swallow me down...oh don't swallow me down...
today

See the man with his head in the sand
He's got a white flag and a gun in his hand
oo..It's a cold wind creepin up your back
and i know that you despise it

Those lines that are crossin your face,
they tell me a story,tell me you got the time...well i think
you got it now...yes you do

Come follow me...
When your heads so heavy with the weight of the day...
Come follow me...
I can steal you while i'm on my way
Come follow me...
It's a new day... oh yes it is..
Don't swallow me down... oh don't swallow me down...
You can try to knock me down... i said
You can try... and try... again

I recall yes... how it feels... to be alone... no
I got stand up got to be strong... moving right along...
move along yer move along
you never knock me down... knock down, never knock
me down,
down,down,down,down,down,down

Those lines that are cross your face,
they tell me a story,you've got the time,we've all got
the time

Come follow me
Cos i know your so heavy with the weight of the day
Come follow me...
I can steal you while i'm on my way
I Said..Come follow me
It's a new day...oh yes it is..
Come follow me...

Don't swallow me down..
oh..don't swallow me down
you can try ..oh yes.. you can you can try and try..
again.. again
ooohhhh...yes
