Today's the day we're gonna leave all our problems
Just get up and go
So forget them, you don't need them
Leave it alone

When the good mornings are long
I tell you, I can never go wrong
There's a storm coming our way
But no, not today, not today

Tonight's the night you can make it
Tonight is the night
Tonight's the night you can make it
Ooh, tonight is the night you can make it
So alright with me

You asked for silver and I gave you gold
I'm asking nothing from you
If these people had a clue what we knew
They'd be feeling it too, yeah

The time's passing us by
But I've never risen so high
The day is moving so fast
So we got to make it last, make it last

Tonight's the night you can make it
Tonight is the night
Tonight's the night you can make it
Ooh, tonight is the night you can make it
So alright with me
So alright with me, yeah

Ooh, I would save you from it all if I could
Yes, I would
Yes, I would

Tonight's the night you can make it
Ooh, la, la, la, la, na, na, na, na, na
Tonight's the night you can make it
Ooh, la, la, la, la, na, na, na, na, na

Tonight is the night
Tonight's the night you can make it
I say tonight is the night
Tonight's the night you can make it
You can make it all right
Tonight's the night you can make it
You can make it all right
Tonight's the night you can make it
You can make it all right
You can make it all right

You are alright with me
You are alright with me
You are alright with me, yeah, yeah

Oh, alright
Oooohhh...
