You only give me what you don't want no more  
Ask the questions that you don't know at all

Let's lie down for a while  
You can smile  
Lay your hair in the old  
Old fashion

You know how it is, my friend  
In the boxes of those picture frames  
Hold your insides 'cause you're cold at night  
Warm your heart now, 'cause you're by my side

Let's lie down for a while  
You can smile  
Lay your hair in the old  
Old fashion

Lay your hand on me  
Apple orchard  
Take your time  
You can settle down  
Hold your breath  
'Cause you're, you are nothing  
Hold your hand on me  
For a while
