Verse 1

You wanna climb up the stairs, I wanna push you back down
But I let you inside, So you can push me around
If I leave before you, And I walk out alone
Keep your hands on yourself, When you follow me home

Chorus

I don't want love x2

Verse 2

We wake up with pounding heads
Bruised down below.
I should have built better walls,
Or slept in my clothes.
So if I see you again
Desperate and stoned
Keep your prison locked up
And I will leave my gun at home

Chorus

I don't want love x2
