Who's in a surround
Can assorted luck in a dream
Who's in us around
In that sky is something watching

Enough, enough, enough, enough, you said
Give in enjoy (but what if it's)
Enough, enough, enough, enough, you said
Take a good look
It's yours

Time to wrap your head around it
To grow, to grow out

Who's in a surround
Is that something moving in me
Who's in us surround
Thousand murders cutting up me

Enough, enough, enough, enough, you said
Give in enjoy (but what if it's)
Enough, enough, enough, enough, you said
Take a good look
It's yours

Time to wrap your head around it
To grow, to grow

Leave me
I'm being surrounded by being alone
