Everything I say falls away,  
Like the fade on the radio song.  
And everything i try pass me by,  
Like the tide seems to rise then it's gone.

(chorus)

Still there's something to said for company in bed,  
This time I want it, see, I knew we'd agree.  
How can anyone deny the benefits of lying with your  
friends?  
We'll try it again.

Sometimes when I'm by myself, I can't find myself,  
And there's no one there.  
Sometimes I can see myself, I can be myself,  
With a friend, now...  
Everday I ride of my eyes,  
And my mind fills with complications.  
And everywhere I go, pass by slow,  
Fading moments and aspirations.

(chorus)

Sometimes when I'm by myself, I can't find myself,  
And there's no one there.  
Sometimes I can be myself, I can see myself,  
With a friend, now, a friend now...

I'll never know you like you know yourself.  
You'll never know me like i know myself.  
I'll never know you like you know yourself.  
You'll never know me like i know myself.  
I'll never know you like you know yourself.  
You'll never know me like i know myself.
