Where is my inspiration?
It walked right out my door.
It will be back someday yeah.
Stronger then ever before...

I, want to be alone, all by myself
I, think about the things I should have said.
I, step aside and let, the feeling fade.
I, want to be alone & silent

Be careful what you wish for.
You might just get it someday.
Don't think about tomorrow.
F*ck all that is yesterday.

I, want to be alone, all by myself
I, think about the things I should have said.
I, step aside and let, the feeling fade.
I want to be alone & silent

You used to be my inspiration...
My only source of imagination...
You used to be the inner vision from inside.
Now I'm going blind... yeah!

I, want to be alone, all by myself
I, think about the things I should have said.
I, step aside and let, the feeling fade.
I want to be alone & silent (x2)
