I, never thought that I would ever meet somebody as
crazy as you
I didn't think so.
I never thought that for a moment
I could maybe have my way with you.
I never tried to

I don't need you to hold my hand.
I don't think you would understand

I can't blame this one on myself
I think I'll blame it on someone else.
You're sick and tired of my ways,
And I think I hate you...
I HATE YOU

I, never that for a s moment I could maybe have a bit of
your time
We'd have a good time.
I never thought that for a moment
I could maybe have my way with you
I never tried to...

I don't need you to hold my hand.
I don't think you would understand

I can't blame this one on myself,
I think I'll blame it on someone else.
You're sick and tired of my ways,
And I think I hate you more each day...
I HATE YOU

I can't blame this one on myself
I think I'll blame it on someone else.
You're sick and tired of my ways,
And I think I hate you...
I HATE YOU
