Thinkin' bout how it used to be  
It's taken time for me to break free  
From the walls closing in on me

Everythin' that I did was for you  
What is the point if it ain't for us two?  
'Cos the world revolved around only you

You would see a ray of light  
And I would see the sun  
Couldn't see the possibilities  
Don't lay this trip on me

There's nothin' more to give love has gone  
Time to say goodbye  
Don't count on probabilities  
Can't be no you and me

Closure

No doubt, no doubt in my mind  
Try hard but I know that you'll find  
This heart is only one of a kind

Everythin' that I did was for you  
What is the point if it ain't for us two?  
'Cos the world revolved around only you

You would see a ray of light  
And I would see the sun  
Couldn't see the possibilities  
Don't lay this trip on me

There's nothin' more to give love has gone  
Time to say goodbye  
Don't count on probabilities  
Can't be no you and me
