If it's love you're looking for  
You can come to me  
You don't have to look no more cause  
Baby I'm right here for you  
If it's love you're looking for  
Just wait and see  
You don't have to look no more cause  
I'm right here to give you what you need

You say you and your girl just ain't been right  
You tell me all you do is fuss and fight  
You say you can't take it another day but  
I wonder if you look my way

Cause for the longest time  
We've been just friends  
What would it take for you to let me in cause  
You don't know how much I love you so and  
I wish that I could let you know

Chorus

You say you need someone to be your friend  
Someone to be there through the thick and thin  
I know that I could be the one for you  
Baby, if you asked me to

I know you're looking for a love that'll last and  
You don't have to worry 'bout the past  
I promise that I always will stay  
If you just come around my way

Chorus

We could be happy  
If you give your love to me  
I'm never gonna let you down cause  
I'll always be around and  
If you want me the way that I want you  
I need to know if you do

Chorus

If it's love you're looking for
