The road is long, many turns along the way  
We lose control of the things we do and say  
Oooh, I can't stop what's going on.

Sometimes we need a little rain  
Wash away the pressure, pressure  
Bring back the days  
Like children in the rain  
Take away the pressure, pressure

The world demands, so much everyday  
We do our best, but sometimes it's never enough  
I can't stop what's goin' on

Sometimes we need a little rain  
Wash away the pressure, pressure  
Bring back the days  
Like children in the rain  
Take away the pressure, pressure  
(repeat)
