Hello baby
I want you, right here and now

Look in my eyes
They're saying something
The things they say can't be ignored
What's on my mind
I know you know it
You've read it many times before

You know that I'm in the mood
So stay here with me and
Let me make love to you
Let's set passion free
My body's calling your name
So loud and clear
Come closer and you will hear

Right here right now
I want your love
Right here and now
Some way somehow, babe
I'll get your love
Right here and now

Please hold me close
I'll kiss you softly
In silhouette soft candlelight and
Then we'll make love untold in any story
Best you've ever had in life

You know that I'm in the mood
So stay here with me and
Let me make love to you
Let's set passion free
My body's calling your name
So loud and clear
Come closer and you will hear

Chorus

Let me fulfill your fantasies
The ones you dream of at night, baby
As we enter a world of ecstasy
We'll come together as one (oh baby yeah)

Chorus
(repeat 3 xs)
