On a scale of one to ten, what number are you again?
I've got a pre-occupation with quantifying
every part of a human being, every part and what it
means
and turning it into a commodity

where do i connect with this machine?
we have become accessories
make your connections in flesh and blood
we have become accessories

in a hundred words or less tell me about yourself
it's so easy to know you when you're packaged on a shelf
and we're joined at the finger tips
by zeros and ones, we're being sold for the highest bid

what happens when the power goes out?
what happens when we're disconnected
what happens when the power goes out?
what happens when we're disconnected?

where do i connect with this machine?
we have become accessories
make your connections in flesh and blood
we have become accessories

what happens when the power goes out?
what happens when the power goes out?

where do i connect with this machine?
we have become accessories
make your connections in flesh and blood
we have become accessories
