

The Automatic

"In The Mountains"

Visit "[In The Mountains](#)" on MotoLyrics.com

Beautiful, dead leaves before snow
year in year out
in the mountains where it grows
in jungles
so far away
it could not matter
if they had fireworks

if your having fun
it doesn't matter so your just carry on like you always
do
your not special
special enough
to make it ok

High ideals
such contradiction
condescending
to cross the line
good times
beautiful people
expensive phones
such hospitality

if your having fun
it doesn't matter so your just carry on like you always
do
your not special
special enough
to make it ok
if your having fun
it doesn't matter so your just carry on like you always
do
your not special
special enough
to make it ok

so go on so go on
your doing alright
you've got money and professional type
so go on

what the worry with a little bit at a time
what the worry when it someone elses problem?
its not my problem
its not my problem
its not my problem

Beautiful, dead leaves before snow
year in year out
in the mountains

if your having fun
it doesn't matter so your just carry on like you always
do
your not special
special enough
to make it ok
if your having fun
it doesn't matter so your just carry on like you always
do
your not special
special enough
to make it ok
