Verse #1

"Over and out," I sing to the world, "I'm down."
There's no stopping it now, when I'm the captain of, the
aviator of
(All the, all the sounds come to me when I dream out
loud)
When I'm falling asleep, I can count all the sheep from
the clouds
(Flashing, flashing lights take me home to the greatest
heights)
And now I'm crashing... just thinking of those...

Chorus #1

City nights, hold on tonight
To this plane that we've been flying in
My love will be your medicine high
City nights, skylines and heights
Oh I'm decending now, I'm burning up
And I can't get away from the day to the night

Verse #2

Feeling like I won't ascend, check the temperature, a
thousand degrees
Well the sun is where I'll rest this time, cuz on Earth I'm
bound to freeze
Oh somewhere out there, I know it, but too far for me to
reach
Are the planes to see where I can be, making all the
sights and sounds believe, believe

Chorus #2

City nights, hold on tonight
To this plane that we've been flying in
My love will be your medicine high
City nights, skylines and heights
Oh I'm decending now, I'm burning up
And I can't get away from the day to the night

Chorus #3

City nights, hold on tonight
To this plane that we've been flying in
My love will be your medicine high

City nights, skylines and heights
Oh I'm decending now, I'm burning up
And I can't get away from the day to the night
