You can stay in the dark, brother  
You can stay in the dark  
You can stay in the dark, sister  
You can stay in the dark

I called for the African doctor  
Just to play a part for me  
He told me that's an easy thing to do  
He told me, we don't need no relation

We don't want no relation  
We don't need no relation  
We don't want no relation

Doctor Lester  
(Doctor)  
He's a real good doctor
