I'm In Love For The Very First Time

Chorus

I'm in love for the very first time.

I'm like a shop in the general line.

I've got happiness, laughter, joy ever after.

I'm in love for the very first time.

Verse

Yes, I feel that we must stick together,

No matter what the future will bring.

Now you've said, you will love me forever

And today I've got a reason to sing.

Verse

Let me always be with you, my darling.

Because without you, I can't live anymore.

When we're sailing together, my darling,

You will get me safely ashore.
