

The Battle Of Me "Anchors Away"

Visit "[Anchors Away](#)" on MotoLyrics.com

I'm lonely but not alone
I'm weary but not weak
And till I come home
I'll brave these storms with ease
So anchors away
Anchors away

Found himself stuck at sea
Checked the forecast a storm's coming
And your tank has just run out of gas
So anchors away

The waves will not grow weary
You will lose all sight of me
But call and I will come

I'm lonely but not alone
I'm weary but not weak
And till I come home
I'll brave these storms with ease
So anchors away
Anchors away

The current is pulling me down
You through me a line, you wouldn't let me drown

So anchors away, I'll leave this behind
Sail to the shore where I will find
Everything you want me to be

I'm lonely but not alone
I'm weary but not weak
And till I come home
I'll brave these storms with ease

I'm lonely but not alone
I'm weary but not weak yeah
And till I come home
I'll brave these storms with ease
So anchors away
