Oh, clap your hands, clap your hands  
Oh, clap your hands if you can  
You've got the rhythm in your feet  
Now clap your hands to get the beat  
Clap your hands, clap your hands

You've danced the Bop and done the Stroll  
The Conga-rock is getting old  
Now clap your hands right through the dance  
The beat will put you in a trance  
Clap your hands, clap your hands

Now gather 'round and listen close  
This is the dance that is the most  
Oh, face-to-face you gotta stand  
And get the big beat from the band  
Clap your hands, clap your hands

You've got the beat, you're in the groove  
Now grab your chick and start to move  
This isn't just-a rock 'n' roll  
This is a dance for young and old  
Clap your hands, clap your hands

Don't go away

Let's get together once again  
This is the way to make a friend  
Oh, if you're ever feelin' blue  
This is advice I give to you  
Clap your hands, clap your hands
