

The Becoming "Silent As The Grave"

Visit "[Silent As The Grave](#)" on MotoLyrics.com

Until your heart stops beating
You may never, ever know it's there
So take a breath
Skin so fair and lovely
Baby, don't you know that it's been there
For all your life

We're so alive, we forget to die
We all wanna live forever
We don't want to see the end tonight
We're so alive, we forget to die
We all wanna live forever
Yet we lay buried with this lie

The sound of our desire's killing
Us about as quiet as the grave
Lest we forget
We should be scared as hell is real
Brother take a look at what we've done
We should be scared...
