Edward if I recall
You left me crying on the floor
And I didn't get up for 3 more months
Until I found my way out of that storm.

I saw the sun
In the form of Jacob Black
No I didn't think
That you were ever coming back.

[Chorus]:
My little sun keeps me warm when I am cold
My little sun is nearly 40 years old
My little sun keeps shining way past noon.
My little sun, is now My Little Moon.

Edward why did you leave me?
I thought we were in love.
You told me you would protect me,
But I guess you didn't care enough.

Edward if you cared at all
You never would have gone.
But you did
And now this is a werewolf song.

[Chorus]
