The ballet studio
The others did it
I have the video
How could they do this?

[Chorus]
It began when we came on their land
We found out she was human
Gotta find myself a new man...
So I came back
He's gone, she's not
Mate for mate she will be taught
How to finish someone off!

I was planning for the kill
Uncovered were my tracks
The werewolves somehow tracked me down
But sense was what they lacked

[Chorus]

So I came back
He's gone, she's not
Mate for mate she will be taught
How to finish someone off!

How to finish someone off!
