"Mix It Up"

Visit "[Mix It Up](#)" on MotoLyrics.com

We'll light the torches all around the world
We'll sing the praises of the mixed up boys and girls
Ain't got no time for your grumbling now
Get up and go and let's go get some fun somehow

We struck a match that'll never go out
No time to worry your head what it's all about
I got you, you got me, and we got us
Come on baby let's go mix it up

You're sitting pretty when you steal my love
You give me shivers when you cooja flike un duh
Just take my hand and we'll be on our way
We'll mix it up until we reach the light of day

We struck a match that'll never go out
No time to worry your head what it's all about
I got you, you got me, and we got us
Come on baby let's go mix it up
