Tonight, you take a part of my life
Tonight, you take a part of my life

Only lovers are left alive
Only lovers are on my side
Wasted days and wasted nights
Cause my dreams just slowly die

Stand by me, stand by my side
Change your love and make it mine
With your arms around me, I'm satisfied
Take me to your music, I'll come inside

Tonight, you take a part of my life
Tonight, you take a part of my life

Take that trip, forget the world
Find those girls all made of gold
I've done a lot of things I know are wrong
So please forgive me, before I'm gone

Tonight, you take a part of my life
Tonight, you take a part of my life

Tonight, you take a part of my life
Tonight, you take a part of my life
Tonight, you take a part of my life
Tonight, you take a part of my life
