"The Only Place I Can Look Is Down"

Everytime that you arrive,
I look away, away,
Everytime that you arrive,
Its hard to say, to say,

That now,
The only place that i can look is down,

Everytime you try to smile,
You hide your face, your face,
What was once so beautiful,
Is now lost with no trace,
No trace

I try to forget most of the time,
Push all these thoughts to the back of my mind,
Cant believe what youve done,
I cannot believe all that youve done,

That now,
The only place that i can look is down,
That now,
I cant look up i cannot look around
