Once upon a time
In a world of dreams
In a world of wishes
But people do not give up

And in a world of hopes and faith
Can cause a world of happiness
Like a world of care and kind
But most important to them is

Never give up
Never take no for an answer
Don't think you can make it through
Never give up
Don't think you can make it through

Talk to people
Make your dreams come true
Bring people back
Make others have their dreams
You can be anything you want

In the world there are dreams
But there is war
But I know this world will pull through
But the most important thing to them is

Never give up
Never take no for an answer
Don't think you can make it through
Never give up
Don't think you can make it through

No no no don't give up
No no no don't think you can't make it through
No no no no
Don't think you can make it through
No no no yeah yeah
