We always wanted a dream
And were tellin' you now sometimes
They don't come true
Now we can tell you just try

Mabe everything will work out

Everything is a dream to us and to you
But you try to make it true
And we can make it work out for you
Because we stand together
And we fight together

Dreams never come between us
And we know it true and sometimes we get it from you
And we don't care if our dreams get crushed only
If we have each other are dream are good
And we know you can do it too

Just follow us and you'll pull through

Everything is a dream to us and to you
But you try to make it true
And we can make it work out for you
Because we stand together
And we fight together

Tell me everything is gonna be alright
I can't save the world aslong as we have each other
Ohh woh woh
Yeah

Everything is a dream to us and to you
But you try to make it true
And we can make it work out for you
Because we stand together
And we fight together
Because we stand together
And we fight together
Because we stand together
And we fight together
Everything is a dream to us and to you

But you try to make it true
Everything is a dream to us and to you
But you try to make it true
