Been sittin at home, don't know what to do
I'm bored so much, but I'm thinking of you
I don't know if I'm wasting my time
When I'm with you I wish that you could be mine

I don't know if we will do well
I love you more than words could tell
You are always there for me
I wish I could turn into we
I don't know if we'll do well

I love you more than words could tell
I'll always be there for you
No matter what I will stay true
I don't know if we will do well
I love you more than words could tell

Will we do well
I love you more than words could tell
Will we do well
Remember the times when I talked to you
About the problems I was coming to
You always seem to have a way
To make me better with the things you say
You always know when there's something wrong
And you would talk to me all day long
I love you more than words could tell
I'll always be there for you
No matter what I will stay true
I don't know if we will do well
I love you more than words could tell

I don't know if we will do well
I love you more than words could tell

You are always there for me
I wish I could turn into we
I don't know if we'll do well
I love you more than words could tell
I'll always be there for you
No matter what I will stay true
I don't know if we will do well

I love you more than words could tell

I love you more than words could tell

I'll always be there for you

No matter what I will stay true

I don't know if we will do well

I love you more than words could tell
