You can create your own world if you belive in yourself
And you think you can make it all
With just your imagonation

And you know
And you think what it would be like

And now you willing to make it all
And creat your own world

Have faith in your self you don't know how much
You can make in you imagonation
You can create a world for you
It can even be a secret kingdom

If you want anything in your world you create
You can make or do anything you want

You can make the skys bueatful
And you can make the flowers grow

And now your willing to make it all
And make it become truthfull

Have faith in your self you don't know how much
You can make in you imagonation
You can create a world for you
It can even be a secret kingdom

You can make your life better then it is
You can make all your fers go away
Go away
If only you have a good imagonation

Have faith in your self you don't know how much
You can make in you imagonation
You can create a world for you
It can even be a secret kingdom
Have faith in your self you don't know how much
You can make in you imagonation
You can create a world for you
It can even be a secret kingdom
