Sister Anne don't give a damn about evolution
She's a liberated woman, she's got her solution
Like a dinosaur, she's going off the wall
She's gonna make it her own crusade

She's got a heart of gold
Gonna save a bitch's soul
From goin' down
Satan's hot way

She can, I know she can
I know she can, she's my Sister Anne

Such truth, such beauty, such purity
She wears a halo around her head
She's got the Ten Commandments tattooed on her arm
If she died she'd rise up from the dead

She's every man saviour and
Mama too
If you do it she said
She'll save hell from you

She can, I know she can
I know she can, she's my Sister Anne

Sister, won't you tell me where I went so wrong
I used to say my prayers baby, all night long
I'd listen to the Gospel ringing in my ears
Come on Sister Anne, save me from my fears

If you can, I know you can
I know you can, you're my Sister Anne

Sister, won't you tell me where I went so wrong
I used to say my prayers baby, all night long
I'd listen to the Gospel ringing in my ears
Come on Sister Anne, save me from my fears

If you can, I know you can
I know you can, you're my Sister Anne

After Sunday school Mass she goes to see her man
She always does the best that she can
She never tries to tease, she always aims to please
She's gonna squeeze you tight and make you feel
alright

'Cause she can, I know she can
I know she can, she's my Sister Anne
I know she can, she's my Sister Anne
I know she can, she's my Sister Anne

She's my Sister Anne
She's my Sister Anne
She's my Sister Anne
