### Verse

I never found my place  
In my life  
'Cause everywhere I go it's the same

People crying  
Abusing  
Fighting over  
Something they don't have

### Chorus

I wanna have these wings of freedom  
Play on a yard with all those children  
I just want to get out of this world

I wanna have these wings of freedom  
Fly far away from all these problems  
I just want to get out of this world

### Verse 2

What if we start to  
Look at each other  
'Cause we're not so different after all

We're rejecting  
Excluding  
And I just  
Can't take it anymore

### Bridge

Oh, how can we change our mind  
How can we understand  
That life is better  
When we think together
