You know that my eyes never wonder
Sure baby there's a lot to see
But your spell has put me right under
You never have to worry, never have to wonder 'bout
me.

You see the way that I love you
Ah honey can't you tell I do
There's no doubt a man's a lookin
You never have to worry, never have to wonder 'bout
me.

Go to me, wanna get over what might be
That was then now it's not anything likely
I took a good look when I was much younger
A good time when I was running free
Now I'm telling you honey
You never have to worry, never have to wonder 'bout
me.

Go to me, wanna get over what might be
That was then now it's not anything likely

You know my eyes never wonder
Sure baby there's a lot to see
But your spell has kept me right under
You never have to worry, never have to wonder 'bout
me.

Never have to wonder 'bout me.
Never have to wonder 'bout me.
Never have to wonder 'bout me.
Never have to wonder 'bout me.
Never have to wonder 'bout me.
Never have to wonder 'bout me.
Never have to wonder 'bout me.
