Bet you're getting the wrong idea about me

Bet you're thinking there's more than the eye can see.
I'll tell you something
then maybe again I won't

'Cause now you see me
and who knows
maybe you don't.

Time after time
you had your chances and you threw them away
oh no!
Don't waste my time
'cause I don't need the glory

That's all I want to say.

Gimme your love - you know what it does to me

Drives me crazy
ain't telling no lies.
Gimme your love - with you I feel satisfied

When you're by my side
ain't telling no lies.

It's on the line
can't think about nothing else

Suits me fine
'cause I know we're two of a kind.
To trust myself is something I just can't do

So how the hell
girl
am I gonna trust you?
Night after night two crazy people getting high on their
love

crazy love.
Don't stop me now

I got a one way ticket straight through your heart
oh no!
Gimme your love - you know what it does to me
...

I bet you're getting the wrong idea about me

I bet you're thinking there's more than the eye can see.
Weil
you should talk
I know quite a bit about you

Don't look so worried just do what we both wanna do.
'Cause time after time
you had your chances
and you threw them away
all away.
You cut it so fine with your advances
honey

now I know just what to say.

Gimme your love - you know what it does to me
...
Gimme your love - you know what it does to me

The kind of woman
you're driving me crazy.
Gimme your love - with you I feel satisfied

When you're by my side
ain't telling no lies.

Gimme your love - I only need half the chance

That kind of woman
that kind of romance.
Gimme your love - with you I feel satisfied

ooh
baby
baby
gimme your love.
