I believed I'd wait for the time  
She said to me, something will come  
And I agreed, but I won't wait forever

'Cause I could be lifted with music  
Drums in Spring, up in the night  
And we shout out, but  
You oughtta say

CHORUS

Wait 'til we're young  
Wait 'til it's over  
Wait 'til it's all that you have left on your mind

Wait 'til we're old  
Wait 'til we're older  
I cannot believe that we are  
Running out of time  
CHORUS

Young and free, maybe it's wrong but  
I believed, and this time I'm letting you go  
The feeling is right

'Cause I can't wait "just a little longer"  
The love, the hate, a light in the night  
It's my life  
That's passing me by

CHORUS

Wait 'til we're young  
Wait 'til it's over  
Wait 'til it's all that you have left on your mind

Wait 'til we're old  
Wait 'til we're older  
I cannot believe that we are  
Running out of time

Whoa, whoa, whoa, whoa  
I know that something's going to come

But I just have trouble bringing it home  
Is there something that I might be doing wrong?

And maybe I'm just living it, no  
But it's better off than the rest that I know  
Would you have me give up before it's even tried?

Wait 'til we're young  
Wait 'til it's over  
Wait 'til it's all that you have left on your mind

Wait 'til we're old  
Wait 'til we're older  
I cannot buy these broken lies you're throwing 'round

Wait 'til we're young  
Wait 'til it's over  
Wait 'til it's all that you have left on your mind

Wait 'til we're old  
Wait 'til we're older  
I cannot believe that we are  
Running out of time  
CHORUS
