She said baby it's time for you and me
To go live our own lives, times not waiting you see
I'm on my way now
This time it's for real
And she packed all her things

And I begged on my knees
Baby I think we were meant to be
Isn't it strange how cheap the words can be

You get over and over and don't waste your time
Love like ours can be too hard to find

Chorus
What if my love for you is even stronger?
What if my heart will never forget?
What if my dreams won't let you go away?
Since the day we met
Since the day we met
How could I forget?

Days may go and weeks go by
With endless clouds and sleepless nights
Not one minute without you in my mind
So baby please won't you come back to me
I would do anything just to make you please
Can't you see we were meant to be

Chorus

She's the kind of a girl
That is so hard to find
In this cold, cold world
With a heart full of love
And a sensitive mind
She's my kind of a girl

Chorus
