"Pretty Little Angel"

Sitting here waiting for something to happen
Watching everybody passing by in the sunshine
Another summer by the beach
Sitting here wishing for someone to talk to
Feeling just a little bit lost in a daydream
And when that girl comes by
She's gonna catch my eye

Chorus

I see that pretty little angel
Got to know her cause I've seen her in my dreams Yeah
My hearth and soul will come tumbling down
When we walk on the beach in the moonlight

Saturdays Sundays and forever after
Gonna be waiting for somebody special
I know you wonder why
I won't tell you a lie

Chorus

I can wait till this summer is over
I'm gonna need me a four-leaf clover
I'll be sitting on the same old corner
Cause this is not another dream

Chorus
