

McBride & The Ride

"Makin' Real Good Time"

Visit "[Makin' Real Good Time](#)" on MotoLyrics.com

It was ten years ago last Sunday
Feels like it was only yesterday
Some will say time drags on forever
But for you and me, doesn't seem that way

Makin' real good time, you and I, here together
Since the day we met, it just keeps gettin' better
Come rain or shine, had our share of all kinds of
weather
We held it together, makin' real good time

The way things are today, it's just crazy
So easy to get lost along the way
We know just right where we're headed
And by your side is where I'm gonna stay

Makin' real good time, you and I, here together
Since the day we met, it just keeps gettin' better
Come rain or shine, had our share of all kinds of
weather
We held it together, makin' real good time
We held it together, makin' real good time

Makin' real good time, you and I, here together
