[Verse 1:]

She's got a silver tongue, but I'm keepin' up with time.  
Don't plan on stayin' too long, enough to make you  
mine  
This isn't what I do, oh I do adore you  
But I'm running out of time, she's comin' back for more

[Pre Chorus:]

Can I keep you keep you wantin' to move  
Can I keep you keep you wantin' to move

[Chorus:]

I fell in love with the girl next door  
Who's leaving town to chase her dreams  
She's the one that I adore  
I fell in love with a girl next door

[Verse 2:]

This scene is getting' hazy, and I'm not sure what to do  
This girl has got me crazy, and it happened all on cue  
And then she opened up, and she came into my life.  
I had her lookin' my way, oh everything's alright

[Bridge:]

But you take what you take  
And I'd hoped you'd mistake me for nothing more  
Than the man who had your heart.
