Chorus:

And the German skies  
Are clear tonight  
The scars of war  
Aren't here tonight  
My German girl  
I shere tonight  
Midnight comes  
The shadows all run  
Far away

Beautiful land  
I can't understand  
What happened before  
In the years of the war  
When so many lives  
Were betrayed  
And the planes turned the nights  
Into flames

Beautiful girl  
A war-torn world  
With an innocent smile  
And the trust of a child  
How strange then this girl  
Next to me  
She should come from such sad  
History

Chorus

How far from the past  
We can be  
When she raises her soft  
Eyes to me
