On a cold October's day  
The battlefield at Gettysburg  
On a plaque I read my name  
The wheels of time begin to turn  
I see the years stripped away  
I see their lines blue and gray

Chorus:

Down in Gettysburg  
Saw them fall  
Bloody Gettysburg  
Took them all  
Waited for the word  
Never came  
Retreat from Gettysburg

I've seen a lot of wicked things  
Heard a lot of people cry  
I know it couldn't touch the pain  
Of seeing 50,000 die  
I saw the sun fall away  
The moon shone white on their graves

Chorus

Billy Yank said good-bye  
Mother's son left to die  
Dixieland look away  
Mother's son died today

Papa fought a bloody war  
His father in the one before  
Walking through the haunted field  
I knew we couldn't give no more  
I saw the years stripped away  
I watched men die blue and gray

Chorus
