Let it go, let it go  
That's what they tell me  
Let it go  
Don't you know you've got to  
Let it go

You're a tortured soul  
You've got to let it go  
It'll drive you mad and pull you down  
You'll sink beneath the ground  
There's just one way around

You've got a troubled mind  
And life's been unkind  
But she'll help to get you through  
In spite of what you do  
And you'll help her too

Let it go, let it go  
That's what they tell me  
Let it go  
Don't you know you've got  
To let it go

You set your demons free  
But you can't let them be  
There's salvation in her eyes  
You begin to realize  
Good things in good time

We can only live and love it seems  
We can only hope and keep our dreams  
There's no changing those whose love's been lost  
All the wasted year - the painful cost

You're a tortured soul  
You've got to let it go  
It'll drive you mad and pull you down  
You'll sink beneath the ground  
There's just no way around
