Oh, my love  
I know that I  
Will love you till the end  
And oh, my love  
Won't you walk with me  
And tell me once again

Oh, love of my life  
Day and night, I pray  
I'll always be  
Ooh, forever  
In your heart  
In mine you'll always be

The old man to  
His agin' wife  
He took her by the hand  
Through all these years  
I've loved you so  
And I will say again

And your past  
Was filled with pain  
I'll take it all away  
They can't hurt you now  
I'm here with you  
I won't let you hurt again

Darlin' to  
My dying day  
I'll take my love for you  
In heaven when we meet again  
I will say to you
