Turn the lights down low
Turn all the lights down low
Killer on the loose they say
Heard it on the radio
Starless night, the moon is white as bone

A knock upon the door
Maybe it's just the wind
Listen to your heartbeat roar
Are you gonna open it
Starless night, the moon is white as bone

Chorus:

Nothing to fear but fear it's
Nothing to fear you tell yourself
Nothing to fear but fear it's
Nothing to fear, is it ?

Chorus

A knock upon the door
Maybe you think it's him
Listen to your heartbeat roar
Are you gonna let me in
Starless night, the moon is white as bone

Chorus
