"She's The One"

Visit "[She's The One](#)" on MotoLyrics.com

Now, you can spread the word around
About this woman that I've found
She's the one
I know you've heard this story told
By so many fools before
But she's the one
I told you you'd be sorry
You can't treat a man this way

Now she's the one, she's the one
And she brings the rising sun
She's the one

You almost had me fooled
Into playing by your rules
Now she's the one
You tried to tell me day was night
Up was down and black was white
Now she's the one
I told you you'd be sorry
You can't treat a man this way

Now she's the one, she's the one
And she brings the rising sun
She's the one

Now you can spread the word around
About this woman that I've found
Now she's the one
Where there's a will now there's a way
She's got me smiling everyday
Now she's the one
