We live in the hills  
Travel at night  
Invisible lives  
In the visible light  
You might hear a sound  
With the fall of the sun  
It's the beat of a heart  
The pound of a drum

Chorus:

We are here  
We are No Man  
Disappeared  
We are No Man  
Turned away  
In our own lands  
We are here  
We'll never go away

Some men are kings  
And some work the mines  
A few have it all  
Get more all the time  
They come with a gift  
And then with a gun  
You learn how to serve  
Or learn how to run

All over the world  
We live in the hills  
Move in the wastelands  
The deserts are filled  
We are the shadows  
That won't go away  
The ghosts of the past  
The future someday
