Drag them back in chains this time
Put them on trial for their war crimes
Murder of millions with a blink of an eye
Foreign policy, a.k.a. mass genocide
Soaked in blood since the beginning
An empire built on mass killing
When will find an end?
Combat rock, we'll fight my friend

2 party system maintain a way of life
You'll cut your self-living by the knife

Well hey! It's America's new war.
It's about time to settle the score
Try to kill as many as they can
Thousands slaughtered in Afghanistan
The New World put on a new face
Single you out by religion or race
The fear of terror fuels a hate filled nation
Civil liberties in their sights for destruction
