

The Brat Attack **"Dyno-Mite"**

The revolution is already here
It's time for all the fear and
Paranoia that comes with change
For now it seems all drained
So now it goes all the injustice no one really knows
As the voices shout out, there is no doubt

2 many socialist dreams
2 many fallen tears
2 much suffering and people die
And ask the question why
So are you ashamed
A villain in the ambient flame
Find out yesterday
How come you're so far away

That's right, we'll fight,
Bring all the dyno-mite and unite
