Yah baby. You're so crazy, so sleazy,
You're the definition of lazy
You don't care; you don't give a shit
Don't give a fuck, unless your it
The one being oppressed, when was this
Your whole life is a fucking mess

We gotta, try, try. Just defy.
No compromise and find out the reason why?

Definition, of this destruction
Corruption, in your manipulation
No I won't be your toy Godammit
I'm on to the ploy
So much anger that becomes hate
Smash your face, smash the fuckin state

There is something that you can do
Is what we are here to prove
Capitalism chains on our brains
The red / black machine is here to stay
