"Sugar Pill"

Come, come like sugar my love
Until the bitter taste is gone
These images then burn my eyes
Like the thumbprints of the sun
Come, come everything to please me
Candy canes on parade
Lay me in the sun till every trace is gone
I am bleached away, bleached away
Oh sugar pill I believe you
Oh sugar pill I wanna eat you up up up up
Now I am blissed out
I have kaleidoscope eyes
I'm light as cotton
I am wide as the sky
This is where my thoughts come to die
And I am happy
Oh sugar pill I believe you
Oh sugar pill I wanna eat you up up up up.
